Dear Dionne,

I wanted to thank you and Niki once again for your outstanding service in the purchase of our new home. This is the third time the Curtiss Team has provided a invaluable service (two home purchases and one home sale) and each time your advise, professionalism and attention to detail has benefited me in these very important transactions. In spite of the current tight housing market, I believe your negotiation advise resulted in our obtaining an outstanding home at a great price.

My experience with other agents has always left me with a feeling that they contributed little value other than access to the multiple listings. The Curtiss Team on the other hand as always provided valuable services from the initial market research to the final closing.

Hopefully, this will be our last move for some time, however, you'll definitely be our choice when that time comes.

Very Sincerely Yours,

“This is the third time the Curtiss Team has provided an invaluable service (two home purchases and one home sale) and each time your advice, professionalism and attention to detail has benefited me in these very important transactions.”
