Re: Realtor Services

Dear Ellen,

I writing to request your assistance in recommending The Curtiss Team to Primacy Relocation for business related to potential transferees with the company. From my understanding, in the switch to Primacy Relocation, certain realtor's were dropped from the Amgen preferred agent list along with the Curtiss Team (comprised of three family members that work as a team; Niki, Dionne and Natalie).

In my career I have had the “unfortunate” need to move frequently and fortunately the one bright spot was using the Curtiss Team for the purchase of two homes and the sale of another, all in Thousand Oaks. The Curtiss' provided the advice, professionalism and attention to detail in these very important transactions that I have never received using numerous other realtors.

My experience with other agents always left me with a feeling that they contributed little other than access to the multiple listings. The Curtiss Team on the other hand has always provided valuable services from the initial market research to the final closing.

Ellen, would you please forward this recommendation to Primacy Relocation and let me know if there is additional information they need to qualify the The Curtiss Team? I have included the Curtiss' contact information below.

Thank you for your assistance in this matter.

Very Sincerely Yours,

Brad W. Crawford
