Re: The Sale of my house

To the wonderful Curtiss Team....

This has been a very pleasant and successful experience and I believe that your quick response to my decision to put my house up for sale was really the deciding factor to the sale...had you waited the weekend, we might have lost our opportunity. But your experience told you to act, and success followed.

Your team's professional attitude was clearly in evidence when you continued to "sell" the house by the use of an open house and sales brochures and the internet, even after a good offer was in hand. You never took anything for granted. I never had to worry for a moment about the necessary steps needed to take the sale to it's completion...your team assisted me competently in every way...and eliminated all the stress of handling something that was new to me. I never had to call any of you more than once before I would get a quick return call, and a reassuring answer to any question, or concern. Additionally, you provided emotional strength and the cheerfulness that was needed at a difficult time in my life.

Thanks to your experienced eye, nothing went wrong...nothing fell through the cracks. I heartily recommend "The Curtiss Team" to anyone considering buying or selling real estate...you all take your responsibility very seriously. I appreciate your work, and I'm grateful for your friendships.

Sincerely,

Marilyn Block

“Thanks to your experienced eye, nothing went wrong...nothing fell through the cracks.”
