

## Just a quick note let you know how we can help you and anyone you refer to us

“We put our house on the market at the beginning of May. By the time August rolled around, and after several price reductions, we still had not received one offer. Our agent, at the time, was again recommending a steep price reduction. That's when we decided to change to The Curtiss Team.

Dionne came to our house and made suggestions that she believed would help sell our house. Her recommendations included minor landscaping, some staging, and completing inspections up front, instead of after an offer was received. All of these came at minimal cost to us as sellers. We moved out of state while the work on our home was taking place. Dionne was there to make sure things were running smoothly. She met inspectors at the house, worked with the landscaper, and purchased items for staging the house. The pictures that were taken for the brochure and the internet were amazing! Our house was taken off the market for one week, and once put back on, we received two offers within the first three days of showing.

We closed on our house in less than thirty days after the offers were received. Dionne worked very hard to get this done. She is extremely professional and diligent, and will be the first person we call, if we are in need of a real estate professional in the area again.”
